Safety Policy Document Section 1 General Statement of Intent

As the managing Director of SC Group Ltd, I am committed to the implementation of measures which are designed to eradicate or minimise risk where reasonably practicable, to the Health & Safety of all employees, contractors, customers and members of the general public that may arise from the actions, processes or products of our companies.

Adequate resources will be provided, objectives set and results constantly monitored in our drive for safety improvements.

As part of our policy, we will endeavour to ensure that all personnel are properly trained and that as a minimum, adequate information and instruction is provided for all persons on site to enable them to undertake their responsibilities, with regards to Health & Safety.

The management for Health & Safety is vital for the requirements of this policy to be met and the Organisation therefore expects all personnel, of whatever level, to treat Health & Safety matters with equal importance as all other operational functions, such as production and quality.

The Safety Policy Document will be kept up to date and all employees notified on any changes or additions. As a minimum this document will be reviewed at least once a year, or as legislation dictates, by the Health & Safety Committee.

Signed:

Date:

28 April 2017

Nicholas Ames
Managing Director
