

QUALITY MANAGEMENT SYSTEM

Environmental Policy

Within the UK we operate from sites at Dunkeswell / Devon and Blackhill / Devon. We trade in the defence, civilian, marine, renewable energy and nuclear power sectors. Our commitment to the environment is paramount. It is therefore the company's aim to comply with legal and other obligations, reduce the environmental impact and ensure the business operates in an environmentally responsible manner.

We are committed to continuous improvement and have established an Environmental Management system in accordance with ISO 14001:2015 which provides the framework for continuously measuring and improving our Environmental performance.

Objectives

Our objectives are as follows:

- Ensure that all significant aspects of the company's activities comply with legal obligations.
- Ensure that all items are stored and used on site in such a way as to prevent pollution.
- Ensure that any risk to the environment can be managed in such a way as to minimise the impact.
- Make efficient use of natural resources by conserving energy and water, minimising waste and recycling where possible.
- Meet our duty of care requirements in relation to waste by ensuring the safe keeping, transportation and subsequent recovery or disposal of waste.
- Keep transport use to a minimum and regularly service vehicles to maintain their efficiency.
- Inform all employees of the company's environmental objectives and how they can assist in meeting the targets.

Targets

- Zero to landfill paper, cardboard, plastic, metal.
- Reduction of paper usage by 1% per annum (per head)
- Reduction in carbon usage by 1% per annum (per head)
