Complete Controls - Handheld Remote

Portable handheld vessel control

Add a helm station anywhere on your boat!

Features:

- **ERGONOMIC DESIGN** - Allows you to effortlessly control both engines at the same time –Lightweight, compact size control unit.
- **COMPLETE ENGINE CONTROL** - Use for complete engine throttle and transmission shift – all normal functions available at any station control head are available on the Handheld Remote.
- **AUXILIARY CONTROL SYSTEM (OPTIONAL)** - Throttle, shift functions plus up to 6 additional functions –windless, bow thruster, stern thruster, engine stop, engine start, horn and steering jog (via Autopilot)
- **STANDARD CABLE LENGTH** - C25 feet allows you to operate your engine controls from virtually anywhere on board.
- **PLUG-IN FOR INCREASED MOBILITY** - Receptacle can be placed in multiple locations on the boat to increase the usefulness of the Handheld Remote. Receptacle can be connected with standard station communication cables (various lengths).
